

Office of the Solicitor General Gwinnett County, Georgia

IMPAIRED DRIVING

Don't Become a Statistic

According to the CDC, 32 people are killed every day in crashes involving an alcohol-impaired driver

DUI is NOT drunk driving – it IS impaired driving.

Impairment could be from alcohol, drugs (including prescriptions), inhalants, or any combination of these.

Over 1 Million DUI arrests occur each year.

An arrest could lead to jail, probation, fines, suspended license, increased insurance costs, loss of job.

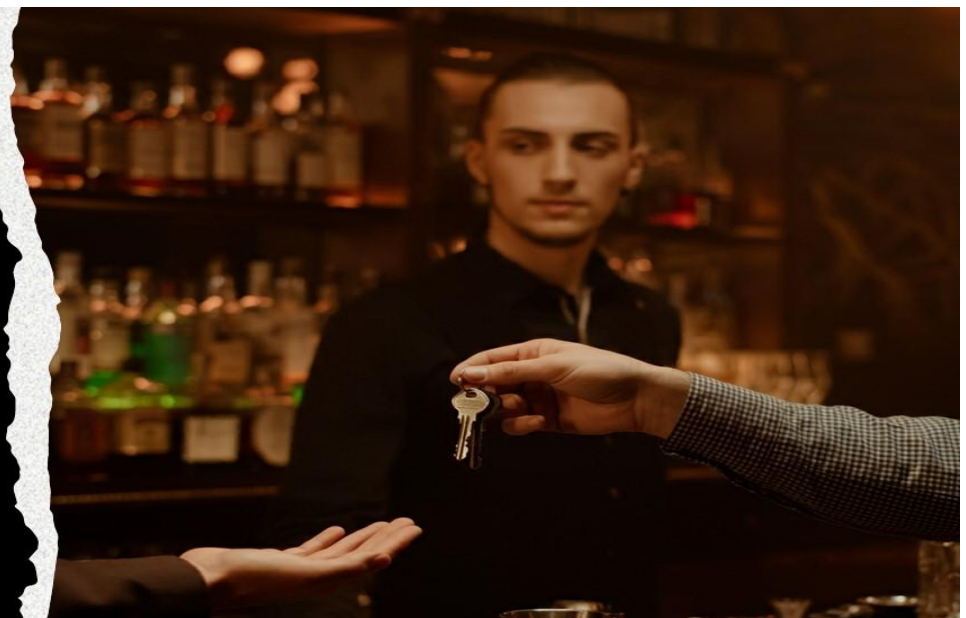

In 2022, there were almost 14,000
alcohol-impaired driving fatalities in the U.S.
and over 500 in Georgia.

SAFETY TIPS

If you are out
drinking, have a
plan!

- Have a designated driver who is not drinking
- Use a taxi or rideshare service
